OBJECTIVE

Diligent and reliable student & worker who has consistently exceeded project goals and has met deadlines on time. Aiming to leverage critical thinking skills, technical knowledge, and communications. Technical skill, leadership, communications experience will provide a smooth integration.

EDUCATION

Bachelor of Science (Computer Science) – University of Kansas School of Engineering
2018 – 2022 (IN PROGRESS)

Louisburg High School

2014 – 2018

Graduated first-in-class with 4.00 GPA compiled with 5 AP courses. 34 ACT Composite.

EXPERIENCE

Technician | KRS Corporation – Louisburg, KS
2018 –

Working at KRS, I image and assemble keypads powered by a custom circuit design. In addition to this work, I was responsible for designing & implementing an Arduino shield and program to automate the flash-programming of the custom circuit boards.

IT Technician | Unified School District No. 416 – Louisburg, KS
2015

I worked as an IT technician for the district where I worked with Microsoft Active Directory, as well as Novell ZENworks. This involved imaging and deploying workstations, media installations, configuring accounts & permissions, and providing technical assistance to faculty & staff.

Technical Producer (Volunteer) | TEDxYouth@Louisburg – Louisburg, KS
2016-2018

For TEDxYouth@Louisburg, I helped organize and produce the first TEDx events at a high school in Kansas.

SKILLS

- Microsoft Windows 7+
- Microsoft Active Directory
- Novell ZENworks
- Fedora & RHEL Installation
- Diagnosing problems to provide technical assistance
- Some Cisco Networking
- VMware vSphere
- Windows Hyper-V

ACTIVITIES

In addition to my formal experience, I worked with the Louisburg High School Band to develop a custom fundraising and accounts portal, which I deployed and maintained on a Fedora instance. I have also organized and led several robotics camps as an outreach effort. Additionally, I developed my communication skills through the state-wide speaking tournament, as a national qualifier.
